# COVID-19 BOOSTER UPDATES!

Both **Moderna**  
and **Johnson &  
Johnson**  
boosters have  
been approved!

The Arizona Department of Health Services states that regardless of whichever vaccine you originally received, it is safe to receive any vaccine as a booster (**Pfizer, Moderna, or J&J**). All three boosters effectively protect against the Delta variant.

## Who is eligible for a booster shot?

According to the CDC: individuals who received a **Pfizer or Moderna** vaccine, the following groups are eligible for a booster shot at 6 months or more after their initial series:

- 65 years and older
- Age 18+ who live in in long-term care settings, have underlying medical conditions, or work/live in high-risk settings

For those who got the **Johnson & Johnson** vaccine, booster shots are also recommended for those who are 18 and older and who were vaccinated two or more months ago.

**CLICK HERE** to find vaccines or boosters near you. The ADHS map provides all vaccine locations statewide and which type of vaccine is available at each site.
