VACCINE BOOSTERS - WHERE THEY STAND

At this time, the CDC and FDA recommend boosters for *ONLY* those who have received both doses of the *Pfizer vaccine*. Moderna and Johnson & Johnson the approval process to distribute booster shots.

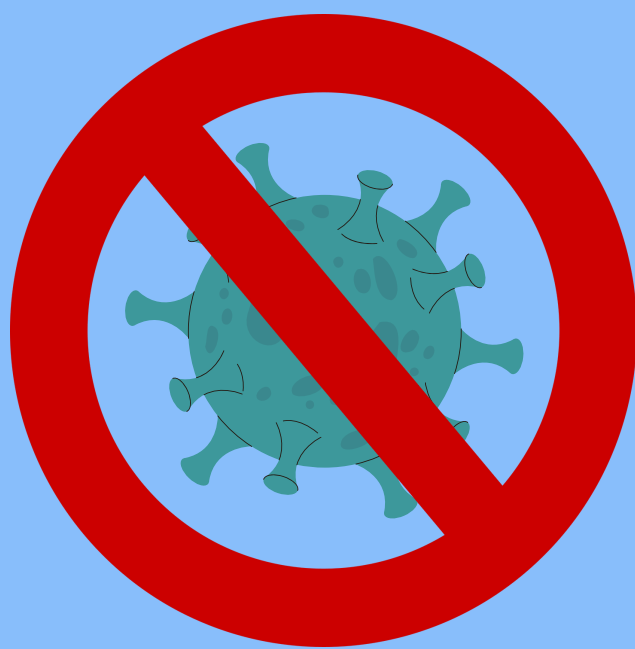

ADHS

There is no need to wait!

The Arizona Department of Health Services have announced there are enough Pfizer doses in Arizona to accommodate both those getting boosters and their first dose. Per the ADHS, nearly everyone in the state is within 5 miles of a provider offering the Pfizer vaccine. You can where at azdhs.gov/FindVaccine or by calling their **bilingual** COVID-19 Hotline at **(844) 542-8201** and selecting *Option 8*.

WHO CAN RECEIVE A BOOSTER RIGHT NOW?

Persons can get a booster six months after receiving their second Pfizer shot and meet any of the following criteria: 65 years and older, residents of long-term care facilities, and people ages 18-64 if they have underlying medical conditions or persons in high-risk professional or institutional settings.

DO YOU NEED TRANSPORTATION TO GET A BOOSTER?

Call the COVID-19 Hotline above can link you with transportation services. AHCCCS members who cannot find transportation are encouraged to contact their **health plans** or can the transportation line **(855-345-6432)**. Those needing to be vaccinated at home can contact their home health provider or seek information through their county health department.
