

### **Do you or your child need to get your COVID-19 vaccine?**

*COVID-19 vaccines are FREE, safe, and effective at preventing serious illness, and hospitalization related to COVID-19.*

- The COVID-19 pandemic has greatly impacted the disability community. Several studies have found that people with an intellectual or developmental disability are at least **twice** as likely to contract COVID-19 and experience severe complications, due to their greater use of public and shared spaces, where transmission of the virus is higher.
- In the clinical trials of the Pfizer vaccine for children ages 12-15, no child who received the vaccine got sick with COVID-19, suggesting the vaccine is highly effective at preventing COVID-19.
- As of June 2022, 70.9% of children ages 5 -11 nationwide have fully vaccinated against COVID-19.
- COVID-19 Vaccines help protect children ages 5 years and older, from COVID-19 infection, especially protecting them from severe disease, hospitalization, or death.

Visit [azhealth.gov/VaccinesforKids](https://azhealth.gov/VaccinesforKids) for more info!

***The Pfizer-BioNTech Vaccine is approved for children ages 5 years or older and now can receive a Pfizer-BioNTech booster shot five months after their primary vaccination***

## **Where to find COVID-19 vaccines**

### **Contact your primary care provider (PCP)'s office**

Hundreds of pediatricians statewide are offering pediatric Pfizer-BioNTech vaccines. Contact your child's provider to see if their clinic is one of them.

### **Vaccine Navigators**

Continued support of vaccine navigation through the COVID-19 Hotline with English and Spanish speakers is available 7 days a week from 8 am - 5 pm. Call them today at **1-844-542-8201**.

### Visit your local pharmacy

Be sure to call ahead to confirm that your vaccine brand of choice is available. While most pharmacies administer the vaccine on a walk-in basis, some can schedule an appointment to reduce wait time.

### Transportation Options

**AHCCCS members** can call the member services phone number on the front or back of their card and reference your Member ID and Health Plan ID numbers in order to request transportation to a vaccine clinic or event.

#### Are you or your child homebound?

For people who are unable to leave home or a doctor has indicated that your health could worsen by leaving home, please consider the following resources:

**AHCCCS (Medicaid) Members:** Please call the member services phone number on the front or back of your card and reference your Member ID and Health Plan ID numbers in order to request in-home vaccination services.

### Mobile Vaccine Resources

- [Maricopa County](#)
- [Pima County](#)
- [Navajo Nation](#)
- [Apache](#), [Cochise](#), [Coconino](#), [Gila](#), [Graham](#), [Greenlee](#), [La Paz](#), [Mohave](#), [Santa Cruz](#), [Navajo](#), [Pinal](#), and [Yavapai](#) Counties

### **Not an AHCCCS member?**

Ride-share apps Uber and Lyft offer FREE rides to and from vaccine events as well as pharmacies offering the vaccine.

- [lyft.com/vaccine-access](https://lyft.com/vaccine-access)

### **Still have questions or concerns whether the COVID-19 vaccine is right for you or your child?**

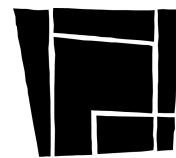

Speak to your primary care provider (PCP). They can review you or your child's medical history and answer questions related to potential side effects and risks associated with the vaccine.

### **Need COVID-19 related resources or need help finding a vaccine event in your neighborhood?**

Contact the Arizona Department of Health Services Office of Health Equity at [healthequity@azdhs.gov](mailto:healthequity@azdhs.gov). **We can provide assistance in English and Spanish!**

### **Would you like to visit a community-based vaccine event or a clinic in your neighborhood?**

You can use the ADHS Find COVID-19 Vaccine online tool on a computer or mobile device to locate the nearest event. Please visit: [azhealth.gov/FindVaccines](https://azhealth.gov/FindVaccines) or type **ADHS Find Vaccine** into your favorite browser. This Find Vaccine website has a filter to search for vaccines by age group and location.
